CURRICULUM VITAE
Snow Sports Expert Witness

NOT A RETAINED EXPERT

Randy Wall is a snow sports expert about skiing, sledding, snow tubing, and winter sporting activities. He addresses snow sports risk, liability, and ski area operations. He is also a Civil Engineer licensed in 14 states. His experience is garnered over a 40-year career in the snow sports industry.

Mr. Wall serves as an expert witness in cases involving snow sports, sporting facilities including runs, resorts, safety practices, and industry best practices. When infrastructure and regulations are involved, he applies engineering expertise to land development, municipal, regulatory, structural engineering, and infrastructure questions around snow sports. In 2011, Mr. Wall was awarded a Master's Degree in Public Administration reflecting research and peer-reviewed writing about Public Administration with application to municipal and other regulated public entities.

Professional Background

Mr. Wall's experience is broad and deep. In addition to his engineering background, he has become a leader and educator since he obtained his first certification as a ski instructor in 1982 by the Professional Ski Instructors of America (PSIA).

He holds 5 levels of certification and 2 levels of accreditation and has served in leadership positions within PSIA as a Region Director, Discipline Chairperson, Education Team Member, Trainer, and Examiner for multiple PSIA regions, and is a Certified L100 Race Coach and Official by the United States Ski and Snowboard Association (USSA).

Mr. Wall's forensic analysis pairs with communication skills to provide expert reports and testimony that articulate fact-based narratives in plain, easy-to-understand language that assist juries to make considered decisions.
